To whom it may concern,

Ekman Pulp and Paper Limited recognizes the importance of the environment and sustainability in our core area pulp and paper business. We continue to work with suppliers who offer us certification and assurances with regards to sound and sustainable forestry practices. Moreover, we will implement our best efforts to avoid trading and sourcing wood or wood fiber (herein referred to as wood) from the following categories:

- Illegally harvested wood;
- Wood harvested in violation of traditional and civil rights;
- Wood harvested in forests where high conservation values are threatened by management activities;
- Wood harvested in forests being converted to plantations or non-forest use.
- Wood from forests in which genetically modified trees are planted.

Your sincerely,
For and on behalf of
Ekman Pulp and Paper Limited

Ms Esther Chung
Logistics and Documentation Manager
